

Curious about the cosmos? Summer 2017 ASTR 101 Introduction to Astronomy

ASTR 101A: Mon & Wed 10:00 – 12:20
(SLN 10192)

ASTR 101B: Tue & Thur 1:10-4:00
(SLN 10193)

ASTR 101E: Group-start Online Course
(SLN 14454)

Astronomy 101 will give you an introduction to stars, galaxies and the universe, with more emphasis on conceptual than on mathematical comprehension. The course covers modern theories, observations; ideas concerning nature, evolution of galaxies; quasars, stars, black holes, planets, and the solar system. Not open for credit to students who have taken ASTR 102 or ASTR 301; not open to upper-division students majoring in physical sciences or engineering. 5 credits (NW, QSR)
