

ESS307: Diversity Outreach Program in Earth and Space Sciences (3-5 credits)

Prerequisites: Any of ESS101, ESS102, ESS211, ESS212, ESS213, ESS472., Options offered for those who do not fulfill these.

Do you want to...?

- Reach out to the next generation of diverse scientists?
- Understand the principles of science outreach and community engagement with multicultural communities?
- Gain first-hand experience in science outreach?

This course fulfills Diversity credits.

Students will be trained to lead Earth and Space Sciences outreach at rural and underserved areas.

For more info contact Isabel Carrera (micz@uw.edu)

Students will work with underserved and underrepresented populations to understand the barriers they face prior to pursuing careers in STEM.

**Outreach + Social Justice +
Multicultural education**

5 weeks of formal class and the rest are as outreach volunteering (total number of credits depending volunteered hours)

Tuesday & Thursday
10:30 - 11:50 am
