

WINTER 2019: EPIDEMIOLOGY 360

EXPLORING THE HIV/AIDS PANDEMIC

Who gets HIV and how?

How can HIV be prevented/treated?

What is being done to end the epidemic?

- Explore the historical, public health, clinical, and social aspects of HIV infection
- Examine the epidemiology of the US and global HIV/AIDS epidemic
- The course lays the foundation for pursuing a degree and career in public health, epidemiology, global health, infectious diseases, or health/medicine

Epi 360 is a great addition to public health and pre-med coursework. No prerequisites.
